TrustScore **4.1** 249 reviews

*Based on internal testing and evaluations as of Jul 8th, 2024, Sintra AI's results are 3x more accurate than regular ChatGPT. Actual performance may vary depending on various factors, including but not limited to user input, task complexity, and system conditions. This metric is provided for informational purposes only and should not be construed as a guarantee of performance.

**Number of data points may vary over time with updates and improvements to our system. The claim of more than 12,052 additional data points for better results is based on internal data analysis and evaluations as of May 15th, 2024. This information is provided for informational purposes only and should not be construed as a guarantee of performance.

***Currently tested and evaluated by Sintra AI as of Jul 8th, 2024, GPT-4o is considered the most powerful LLM available. The performance and capabilities of language models may vary and evolve over time. This information is provided for informational purposes only and should not be construed as a guarantee of performance.

**** Based on internal testing and evaluations as of Jul 8th, 2024, the average message response time is 9ms. Actual response times may vary depending on various factors, including but not limited to user input, task complexity, and system conditions. This metric is provided for informational purposes only and should not be construed as a guarantee of performance.
